

REMARKS:

Tables 44 and 80 both contain typographical errors in the Synergy Factor listed. Since the Synergy Factor is equal to the Disease Control (observed) over Disease Control (predicted), the Synergy Factor for Table 44 should equal 1.09 (i.e.,  $84.2/77$ ), while the Synergy Factor for Table 80 should equal 1.27 (i.e.,  $87.7/69.3$ ). Thus, the applicant is supplying these corrections based on the data in the Tables as filed and is not adding new matter.

No fee is believed to be due with this response. Should there be any unforeseen costs, please charge our Deposit Account No. 17-0055.

Respectfully submitted,

Quarles & Brady LLP
